# The Beacon Forum

The Beacon Forum is the **largest, most influential philanthropy and impact forum in the UK**. It provides a platform for leaders to explore the actions that will grow and maximise all forms of impact-led finance.

The event catalyses giving  
and amplifies impact by  
**bringing together influential  
decision-makers from across  
the impact economy**; fund  
managers, wealth advisers,  
philanthropists, impact  
investors, policymakers and  
regulators.

United by a shared  
commitment and mission  
to driving transformative  
social change and sustainable  
economic growth, **it serves  
as the UK's foremost  
platform for impact  
leadership.**

# What's new in 2026

...we are doubling the size of the event, taking three of the Guildhall's premier event spaces.

With capacity for >500 participants, this will be the UK's largest impact sector event.

We will offer dedicated streamed activities for fund managers and impact investors, philanthropy and philanthropists.

We will increase the range of activities including; keynotes, roundtables, workshops, structured networking and exhibition space - all running continuously throughout the day.

# The format of the day
